

Radio System Health Check

Our system audit will help determine if your handportables and infrastructure are performing as effectively and efficiently as possible. Our technical expert will help you get the most from your system and provide preventative advice to help you avoid costly downtime disruptions.

What's included in our audit?

- Antenna system check
- Repeater Base Station check
- Battery back-up check
- Radio battery analysis
- Radio audio and speaker check
- Findings report
- Recommendations on possible actions to improve your system
- 10% off antenna and battery replacements. (Replacement equipment/parts is not included in this health check)

System Health Check: £99.00 excl. VAT (UK Mainland Only)
